MEMORANDUM FOR: [REDACTED]
Chief, Physical Sciences & Technology Division, OSI
FROM: Director of Central Intelligence
SUBJECT: Scientific & Technical Advisory Panel Report

1. In last March's report of the STAP, there is a section on
page 2 about directed energy technology. [REDACTED]

25X1
25X1

2. I'd like to know more about both the threat and the counter.
I'd also like to know if the Panel or anyone else is doing any more
work on this with respect to what we should be doing from an intel-
ligence point of view.

MEMORANDUM FOR:

FROM: D C I

At the last couple of public speeches I have been asked to comment on the connection between CIA and local law enforcement agencies. Perhaps this was because we were in Dallas, but I'd like to be better prepared for that one in the future.

BLOCKING A NEW AGEE BOOK

The Justice Department may go to court in an effort to block publication of "Dirty Work: The CIA in Western Europe," a forthcoming exposé coauthored by renegade CIA agent Philip Agee. Due out Sept. 30 from New Jersey publisher Lyle Stuart, the book promises to list more than 700 CIA and National Security Agency employees, "with names, addresses, past and present assignments, cover titles and station locations." Justice Department lawyers concede that Agee can always get his material into print by publishing the book abroad, but Justice aides say they may seek a U.S. injunction anyway, and might even sue publisher Stuart for damages.
